Wetaskiwin Creamery Co. New Officers

The first meeting of the shareholders of the Wetaskiwin Creamery Company took place in the banquet room of the Driad Hotel on Tuesday afternoon. The meeting was presided over by W. W. Prevey, who explained the object of the meeting and the prospects of the new company. On motion the prospects of the new company were approved unanimously.

The following directors were appointed: W. W. Prevey, E. R. Rasmussen, A. A. Ellis, J. P. Donald, J. Berry, A. P. Moan and A. Kaiser. J. Berry, A. P. Moan and A. Kaiser, Jr. At the close of the meeting refreshments were served.

At the conclusion of the general meeting, a meeting of the directors was held, when W. W. Prevey was elected president, E. R. Rasmussen vice president, and A. P. Moan, was selected as the secretary treasurer of the company.

RAILWAY REPORTS VERY OPTIMISTIC ON CROP REPORTS

Winnipeg, May 30.—From Lake Superior to the Rocky Mountains, crop reports received by the Canadian National railways covering the weekly period ended May 27, are of a uniformly favorable nature. Seeding was resumed and prosecuted vigorously with the result that wheat planting was practically completed and the sowing of coarse grains so well advanced that the work will be finished this week, providing favorable weather conditions continue. A few points, mostly in southern Saskatchewan, report reduced wheat acreage owing to heavy rain in the mid-summer period. Interruption of seeding operation in the Canora, Sask., district has also been prevented by excessive rain, and oats, barley and flax will likely be the chief cereal crops in that section this year. These reduced areas, however, will probably be more than compensated for by increased production from other places such as North Battleford and points west of there on the C.N. main line to Edmonton.

Conditions in Alberta seem to be somewhat further advanced than in the other two prairie provinces and there is a large increase in the cropped acreage, preliminary estimates indicate. High winds have prevailed but have done no damage so far, although they have absorbed most of the moisture now essential for the young grain, but there is sufficient to carry along the crops for another week or more without possibility of harm, reports show.

In Manitoba and Saskatchewan there is ample moisture and the young grain is growing vigorously under the ideal conditions.

THE GREAT WESTERN STAMPEDE AT GWYNNE

A big stampede is to be held at Gwynne on June 14, 15 and 16, when over \$20,000.00 is to be paid in prizes. A big program of events is being arranged for, and it is expected that the best bucking horses and cow ponies in Western Canada will be in the competitions. Dancing will take place in a large open pavilion for the three days and nights. Money will be provided for those who are not camping. See the big posters for program of events.

U.F.A.

The U.F.A. District association held their first meeting on Tuesday night, last, at the Gwynne Hotel. The following services will be held on the fair grounds on U.F.A. Sunday, June 18. Arrangements were also made to hold the annual picnic on Saturday, July 1st, and the executive committees were appointed:

Picnic Committee—J. Berry, E. R. Sparks, A. P. Moan.
Dance Committee—P. C. Peterson, C. J. Hanson.

NEW SALES TAX NOW IN EFFECT

THE FOLLOWING IS AN ACCOUNT OF THE fifty per cent increase in the sales tax passed by the Canadian house of commons on Tuesday night, June 1st, according to the official house minutes which reached the Chateau hotel of trade yesterday. The increased tax on checks of two cents for every \$50, and the increase in tax on telegrams from one to five cents for every message will not go into effect until July 1st. All changes in customs regulations are effective from May 24.

OBITUARY

SWAN M. STROMSEN

Another of the early settlers of the community passed away early Wednesday morning in the person of Swan M. Stromsen, at the age of fifty-eight years, five months and eleven days. He was born in Sweden, and as a young man started a commercial career, and for a number of years conducted a wholesale and retail business. Nineteen years ago he came across the water, and after looking over the country, decided to take up his residence in Wetaskiwin. He spent about a year in the village, when he moved to a homestead east of Millet, where he lived until seven years ago when he purchased an interest in the Bee Hive Store and moved his family back to the city. After continuing the partnership for a little over a year, he became the sole owner of the business, which he conducted until about a year ago when he retired owing to ill health.

Although it was generally known the deceased was not in good health, his passing away came as a great shock to his host of friends and acquaintances, as it was not realized he was so sick. He will be greatly missed, especially by the Swedish settlers, and the city and community have lost a good citizen, for anything having as its object the best welfare of the district always had his support.

He leaves to mourn his loss a widow, two daughters, Mrs. R. B. Macquon, and Ada, and one son, Arvid, all of Wetaskiwin, besides a host of friends and acquaintances.

The funeral will take place on Friday of this week, service being held in the Swedish Baptist church at three o'clock. The interment will be in the Wetaskiwin cemetery.

JOHN H. WILLIAMSON

There passed away at his home in Vancouver on May 17, John H. Williamson, at the age of forty-three years. Deceased was a brother of T. E. Williamson of this city, and for a time was a resident here. The funeral took place on Monday at 10 o'clock, service being conducted by Allie Lodge A.F. & M., of which deceased was a member. He leaves a widow and family of six children to mourn his loss.

OLDS AGRICULTURAL SCHOOL TO HOLD A REUNION IN JULY

The second annual midsummer reunion of the Olds School of Agriculture alumni association will be held on July 21. Ex-students from all parts of the province will gather at Olds on that date to renew their friendships and to discuss matters of mutual interest during the period they were students, to discuss matters affecting their alumni association and to gather data and information respecting the school, being conducted on the experimental farm.

An attractive program is being arranged and those who attend are assured of a busy day. The reunion will close with a social and dance to be held in the assembly hall of the school building.

Friends of ex-students, any who are contemplating a course at one of the agricultural schools, or any persons interested in agricultural education will be made welcome.

More Large Eggs

Although Mrs. G. H. Ward does not claim the championship for large eggs, she believes she has a hen which cannot be beaten when it comes to laying the large ones regularly. Last week she brought in and we still have—in the back of our heads that we want a whole lot taken off the tariff as soon as possible. Our disappointment is over the small amount of the reduction in the tariff. It will make little difference in the cost of living or in the cost of operating our farms. In fact, in my judgment the expense will be greater instead of less, when the sales tax is taken into account.

Mr. Warner argues that the government should have made more reductions in the tariff on woolen goods. He added that the government had made no reduction in the tariff on this might have been obtained by a further increase in the income tax. It might be said that the farmers were not paying the income tax, but the fact is that the westerners were glad to get the class which was required to pay such a tax.

W. C. T. U.

The Alberta Police report shows a decrease in all major crimes for 1921 under prohibition.

The following are some figures: 1920 had 13 murders, 1921 had 9 and 3 attempted murders, 1921 had 3.
1920 had 11 manslaughter cases, 1921 had 5.
1920 had 8 suicides, 1921 had 3.
1920 had 194 convictions under the Opium Drug Act, 1921 had 183.
The following are some figures under the Liquor Act, 1920 had 2148, and 1921 1895.
Is it not probable that with a few more years under prohibition we will have no more crime to a negligible quantity?

In 1914 under the open bar, Calgary had 104 policemen, and Edmonton, 123. In 1920 under prohibition, Calgary employed only 32 and Edmonton 51.

A new paper is being issued in Calgary, called "Liberty" which is circulating a petition to secure the sale

City Offices To Be Moved To Prince of Wales Building

The regular meeting of the city council was held on Tuesday evening, May 23rd, with all members in attendance except Ald. MacEachern.

After the adoption of the minutes of the previous meeting, a letter was read from C. H. Russell, city solicitor, advising his opinion that as Ald. Cummings was absent from the city tonight, and as his home was still in Wetaskiwin, that he is not disqualified as an alderman. The letter was filed.

The solicitor also wrote the estate of the late John Lee, reporting that there is a clear title to 130 acres of land, and all taxes have been paid. He advised that the public administrator dispose of the estate. The letter was filed and the solicitor was instructed to take the matter up with the administrator.

Alex. Knox wrote re taxes being paid on a certain lot, and wanted to know if the city took title. This was referred to the finance committee.

H. S. Ballville wrote objecting to paying service tax, as he was a partner in the firm. This was referred to the solicitor.

A letter from the department of agriculture with reference to destroying noxious weeds, was referred to the public properties committee.

Permits were issued to T. S. Orr, W. H. Odeff and G. D. Wallace for water and sewer connections under the usual conditions.

A letter from the city solicitor in reference to the heirs of J. D. Cowan, was left on the table.

S. Watson was empowered to purchase certain supplies required at the power house.

The minister of municipal affairs wrote informing the city that an amendment was being proposed providing for the standardizing of all city charters, and when this was prepared, a meeting of representatives from the cities would be held, when Wetaskiwin would be asked to send a representative.

The public properties committee recommended that the offer of L. O. Johnson to purchase a block of land on the east side of the railway track be accepted, subject to the city receiving title to the property.

The offer of Mr. LaBree to erect a warehouse on the east side for \$30.00 was accepted.

Mr. Hoare submitted a proposition to exchange four lots on Pearce street for two lots on the same street owned by the city. This was referred to the public properties committee with power to act.

The public properties committee was instructed to have two seats made to replace those taken from the public school grounds and removed to the cemetery a couple of years ago.

The police report on the city pound was read and adopted.

Special Meeting

A special meeting of the city council was held on Friday evening with all members in attendance excepting Ald. Emmann and Compton. The business of the evening was to consider the matter of moving the city offices to the Prince of Wales building and to make arrangements for the move, if it was decided to change the location of the offices.

The report of the finance committee on being submitted to the council, was read in part as follows: "We, your finance committee, after a very careful and final consideration, find, taking everything into consideration, that the best and most economical move so far as the expenditure of public money is concerned, is to remove the city offices to the Prince of Wales building and there to occupy the old dining room and portion of the rounds, with one or two rooms in the basement for storage."

"The total cost of moving and fixing up the new offices is not to exceed \$25,000."

"Further in consideration of the grant to the hospital board for this year, not exceeding \$10,000, the rooms above mentioned shall be occupied by the city free of rental charge, subject to having."

The remainder of the finance committee's report dealt with the several reasons for their recommendation.

It was moved by Liveridge and Cummings, that the report be adopted, which was carried unanimously.

It was moved by MacEachern and Pendleton, that the members of the finance committee with the mayor and secretary interview the city solicitor to superintend the removal of the offices.

It was moved by MacEachern and Cummings, that the tender of W. J. LaBree for furniture and carpets be accepted, subject to the city paying for the price of \$65.00 be accepted.

It was moved by Liveridge and Livridge, that the committee be authorized to spend up to \$550 on the removal and alterations, which was carried.

It was moved by Liveridge and Cummings, that the secretary treasurer attend to the transferring of the insurance of the city hall furniture, etc., with J. P. Johnson & Co. and that the amount be increased to \$600.

It was moved by MacEachern and Pendleton, that the finance committee go into the matter of renting or otherwise utilizing the old offices and report to council on some scheme to make the same revenue bearing. Meeting adjourned.

The finance committee reported that the move is in favor of doing.

ing money in connection with the sign C. Smith proposes erecting on Railway street west.

A report of the committee recommended that the solicitor's fees for making collections be as follows: under \$25.00, 10 per cent; from \$25.00 to \$50.00, 5 per cent; over \$50.00, 3 per cent.

Several items of taxes for returned veterans were ordered to be written off.

The question of moving the city offices then came up for discussion. The mayor pointed out that if the offices were kept in the present building, the expense in fitting up the place would amount to about \$12,000, while if they were removed to the Prince of Wales hotel, the expense would be about \$25,000 as the rooms were, or if a partition had to be erected, the expense would be about \$10,000 additional.

Ald. Raman expressed himself as being opposed to moving from the present office, and thought that the present apparatus and the team should be kept in the city hall, and a motor purchased at a cost of say \$1500 or \$2000.

Ald. Compton continued the remarks of Ald. Emmann.

After a general discussion it was moved by Emmann-Compton, that the matter of moving the city offices to the Prince of Wales hotel be deferred for the present.

The water committee recommended that the account of P. A. Miquelon be adjusted by allowing him a rebate of \$4.00 on account of frozen meter.

Mr. McLaughlin, medical health officer, gave a report on the sanitary condition of the city. He was instructed to enforce the health bylaws in the city, where they were not being lived.

The chief of police was instructed to enforce the city bylaws in respect to sign writers and live stock dealers.

The public properties committee was authorized to procure a number of "For Sale" signs and have them erected on the vacant city property.

The matter of supplying water for use at the cemetery during the summer was referred to the public properties committee with power to act.

The public works committee was instructed to have the manure removed from around the hydrants.

The public works committee was instructed to have the manure removed from around the hydrants.

Protest Against Reduced Grants to Smaller Farms

Strong protest against the reduction of the grants by the provincial government to the farmers, especially the Class C farms, was made at a meeting of the Alberta Shorters Breeders' Association on Monday night, and a resolution was drafted and sent to the minister of agriculture, with the hope that some departure from the original intention will be made before the dates of these fairs. It was claimed that these fairs would be the particular losers, since they are the only ones, outside of the A and B classes, and which are not affected by the cut, which make a bid for the reduction of the cattle which go on the circuit. It was claimed that several breeders who were fitting their stock for show this year, had stopped, as it would not pay them to go to the fairs, and that the breeders were men closely associated with fairs of that classification expressed the opinion that it would kill their fairs and seriously affect the breeding industry. The matter will be taken up with other or purposed associations for concerted action.

RAILROADS ACCEPT FREIGHT RATE CUT

New York, May 30.—The ten per cent reduction ordered by the Interstate Commerce Commission effective July 1, will be accepted by the 37 railroads of the eastern division. It was decided at a special meeting of officials of these roads yesterday.

BORN

CARSELL—In Wetaskiwin, on May 25, at 2:45 p.m., to Mr. and Mrs. Quinton Carsell, a daughter.

TINNIE—At Lethbridge, on May 30th to Mr. and Mrs. Tinnie, a son.

UNFAIRNESS!

At the meeting of the city council on Tuesday evening of last week, the work of publishing the many bylaws was awarded to The Free Press, notwithstanding the fact that the price quoted by The Times was four dollars less than that submitted by Ald. Liveridge, proprietor of The Free Press.

As the circulation of The Times is very much larger than that of our contemporary, and as it might be expected that the council would be desirous of giving all the information and publicity possible regarding the proposed loans, we claim we were unfairly treated by the council.

Evidently the mayor and the aldermen, who were elected at last election, have forgotten their policy of economy!

MILLION LOST IN WAGES BY SOUTH MINERS

Calgary, May 30.—The Calgary Herald says today: It is computed at a low estimate that the members of the United Mine Workers of America in District 15 have during the two months they have been on strike lost some where around \$1,000,000 in wages. It is based on only one week's work, which would probably be about the average for the time of the year. If the mines had been working, if the strike had occurred when the mines were busy, as in the fall and winter months, the loss would probably have been \$2,000,000 a month. As practically no strike pay is being received by the men, the first mentioned sum represents a dead loss to them.

It is somewhat difficult to say what the losses of the operators are, but it is known that in the strike of 1911 it cost one of the mines in District 15 while it was idle for upkeep expenses and necessary repair work. As a matter of fact \$20,000 a month was set aside for four or five months when work was resumed for the purpose, and such a mine never again responded owing to a fire which broke out.

MIDNIGHT FIRE AT VIKING, RESIDENCE BURNED TO GROUND

Viking, May 29.—Viking was aroused at midnight Sunday by the call of fire. The residences owned by Rev. A. E. Hansen, formerly a Lutheran pastor at Viking, and occupied by J. Jacobson and family, was discovered to be a mass of flames. Fortunately no wind was blowing and the flames were confined to the one residence. The Jacobson family were absent at the time sleeping Sunday with friends. There is no insurance on the house. \$500 insurance had been put on the furniture, which was two weeks ago. The fire was caused by a gas stove. The origin of the fire is a mystery. An investigation will be made.

Charged with stealing mail matter containing money, William N. Shundt, postmaster at Stirling post office, was arrested by a R.C.M.P. constable at Vegreville on May 23rd. The accused was brought before Inspector F. J. R.C.M.P. at the Edmonton barracks of the detachment, charged with the theft, and committed for trial.

Ice Cream Cone Matinee

The manager of the Angus Theatre is holding a special feature on Saturday of this week, when he is putting on an ice cream cone matinee in connection with the regular program of pictures. Every kid paying an admission to the theatre for the matinee will be presented with a cone. Gloria Swanson in "The Great Moment" and Larry Semon comedy, will be the new serial "Winners of the West" will be shown.

The dining car service on the Canadian government railways resulted in a deficit during 1921 of \$176,394.22, it was stated in the house of commons last week.

After June 1 radio receiving licenses will be issued through the post office department of the larger cities, as well as through the radio branch of the naval service department, it has been announced.

FAVORABLE OUTLOOK FOR CANADIAN WHEAT

Washington, May 29.—In a summary of foreign crop prospects, the United States department of agriculture presents a favorable outlook for Canadian wheat. It says moisture conditions are very good and a large acreage of wheat is being sown. The autumn sown wheat wintered well and is making a good growth.

According to the best information available in Regina on Friday, 1922, the percentage of what will be sown in the Regina district this year, is now in the ground. A shrinkage of about 15,000,000 bushels is estimated in this district this year.

Big Baseball Tournament On Fair Days

At a meeting of the Wetaskiwin Agricultural Society, held in the U.F.A. block on Tuesday, the 23rd inst., it was decided to put on a baseball tournament in connection with the fair this year.

This tournament will be open to teams from Wetaskiwin and adjoining districts only, and it is expected that it will have for its chief attraction the competition. A purse of \$150.00 will be offered, to be divided two ways.

The committee appointed at the last directors' meeting, to interview the municipal councils of Montgomery and Bigstone with regard to a grant for the fair this year, reported progress. It was decided to circulate petitions among the ratepayers of these districts in order to get their views on the matter, and the committee were instructed to again interview the two councils at their next meetings and obtain a final decision. It seems to be the general consensus of opinion that a majority of the ratepayers are in favor of the proposed grant.

A committee composed of Thos. Lawson, Geo. L. Gethard, E. R. Rasmussen and Ed. Schmidt, was appointed to canvass the townspeople for donations, one and a half dollars each. Thos. Lawson and Messrs. Sparks and McFarlane were chosen as a committee to interview the city council with regard to a grant for this year.

The following gentlemen were elected members of the sports committee: Fred Freeman, Thos. Lawson, A. Ronstone and E. L. Penton.

MUNICIPALITIES WILL FIGHT NEW TAX ON CHECKS

Winnipeg, May 28.—Acting upon a suggestion made by Finance Commissioner Ross of Toronto, Acting Mayor H. C. Thompson, said the municipalities should not be asked to contribute to the proposed imposition of the stamp tax on municipal checks. The proposed tax is to be levied at the rate of two cents for each check, and the municipalities should not be asked to contribute to the same basis as a corporation or individuals, as they were not in business to make money. The municipalities should not be asked to contribute to the same basis as a corporation or individuals, as they were not in business to make money. The municipalities should not be asked to contribute to the same basis as a corporation or individuals, as they were not in business to make money.

JIM MURPHY LED ALL THE WAY IN BIG MOTOR RACE

Indianapolis, May 28.—Leading from start to finish, Jimmy Murphy, of Los Angeles, California, winner of the 1921 French Grand Prix, carried his name deeper in the hall of motor fame when he finished the 500-mile auto-race at Indianapolis. He finished the race in 5:31:46.5, a record for the 500-mile race. Murphy smashed all records for the distance to smother, clipping more than 16 miles off the best previous record. His time was 5 hours 17 minutes and 36.75 seconds, an average of 94.8 miles an hour.

While major honors went to Murphy, Harry Maitz, also of Los Angeles, who finished second, drove a remarkable race. He jumped into second place sixty miles after the start, and held it throughout, always making a desperate fight to catch Murphy. Hart's time was 5:20:34.5, an average of 93.34 miles per hour, which was also far in advance of the record.

Buddy Hearns, a veteran racer, piloted a French Grand Prix car to third place in 5:25:06, an average of 93.01 miles per hour, while Ralph de Palma, one of the favorites, was fourth in 5:31:04.65, an average of 92.55 miles per hour.

The old record for the race was 5:32:55.1, made by Ralph de Palma in 1915.

DEMOLISHED R.I.C. MEMBERS COME WEST TO SETTLE ON LAND

Winnipeg, May 30.—A party of demobilized members of the Royal Irish Constabulary arrived here last night on their way west where they will settle on the land. The party numbered 105, including their dependents.

A member of the party said there was nothing else to do but emigrate, as it was unbearable for R.I.C. men to continue to live in Ireland after they were demobilized. "There is nothing to it—they're shooting us like rabbits," he declared.

Miss Hamilton, of Provost, is visiting at the home Dr. and Mrs. McColgan.

Suffered So Much Her Hair Turned Gray

**Winnipeg Woman Became
as Weak as a Child From
Stomach Trouble. Is Now
Picture of Health and Has
Gained 15 Pounds.**

"I never would have believed any
medicine could bring about such a
change as Tansie has done to my
wife," said Harry Gray, of 126 Bryce
St., Winnipeg, Manitoba.

"For many years my wife suffered
from stomach trouble and bilious at-
tacks, which, of late, were so violent
that she had to go to bed for two or
three days at a time. She could
hardly eat anything and got to be
very thin and as weak as a child. She
had such terrible headaches and suf-
fered so dreadfully that though still a
young woman, her hair turned gray."
"But the way Tansie has helped her
is remarkable. Why, she is like a new
woman. She has a splendid appetite
and has no trouble with indigestion,
bilious attacks or headaches. She has
gained fifteen pounds in weight and
is the picture of health. We both
think Tansie is the finest medicine in
the world."

Tansie is sold by all good druggists.

**DAIRYMEN ARE TO
CUT CREAM PRICE
BY 5 TO 8 CENTS**

Red Deer, May 27.—A very strong
resolution opposing the introduction
and importation of oleomargarine was
passed at a meeting of the Alberta
Dairymen's association, held here
yesterday afternoon. The dairymen
are very emphatic in their demand
that the local dairy industry must be
protected from what they consider to
be unfair competition in this regard.

The producers' section met separately
under the chairmanship of N. S.
Smith, M.L.A., Olds. Among other
producers present were Thos. Noble,
Dundas; Grant Paulsen, Ponoka; N.
Clark, Didsbury, and W. A. Tiffin,
Lethbridge.

The manufacturers' section also met
separately and decided that in view
of present conditions and prospects of
the market the price paid for cream
throughout the province would be
lowered by 5 to 8 cents on Monday
next.

Mr. Marker, dairy commissioner,
conferred with the dairymen in regard
to the working of the new system of
government grading of cream which
appears to be giving very general sat-
isfaction. Some of the more aggres-
sive creamery companies are galled a
little by the elimination of the cream
stations but all round the readjust-
ment is working out very satisfactory.

BRIGHTVIEW

The visit of the Rev. Archie Gor-
don of India, to Brightview on Monday
last will long be remembered as one
of the finest missionary talks ever
given in the church. Mr. Gordon, be-
fore leaving for India, was a pastor
of the Baptist church in Wetaskiwin,
so was personally known to quite a
number of his hearers, this giving his
lecture an intimate personal nature.

He had several models of native life
and industry from which he explained
native customs and conditions and two
of the idols in common use, however,
as he explained, the Hindus have 320,
000,000 idols or gods, one or two more
or less would not be noticed. The
lecture was repeated in Wetaskiwin
Presbyterian church on Tuesday even-
ing.

"The opening ceremonies of the new
parsonage will be conducted on Wed-
nesday, June 10, it is hoped, that all
interested will be present. Lunch is
to be served at noon.

SOUTH ALBERTA HAS HEAVY RAIN OVER WIDE AREA

Calgary, May 29.—Between Satur-
day night and Monday morning, all
southern Alberta between Chatham
on the north and the International

boundary on the south and between
Winnipeg on the east and the foot-
hills on the west enjoyed between
twenty and thirty hours rain. The
precipitation came at an opportune
time and covered a large section of
the province that suffered from the
drought last year.

**LETTERS FROM ALL OVER
TELL HOW
BURDOCK
BLOOD
BITTERS
RELIEVES DYSPEPSIA**

Among many of those who have writ-
ten us is Mr. A. Fleming, Scotland,
Alta. He says in his letter—"I have
been troubled with dyspepsia for some
years. I tried several medicines, but
only got relief for a short time. I suf-
fered with pains in my stomach, also a
burning, itching, after eating, and
could not eat any meat at all. I got
run down and was very weak from rob-
bing the stomach of its necessary wants.
I also suffered from pains in my neck
which would run up on both sides into
my head causing terrible headaches.
I used several bottles of Burdock Blood
Bitters, and now am completely relieved."

B. B. B. has been on the market for

There is about to appear on the market a new food product, pumpkin flour. It will be sold in half pound cans or cartons. The stuff is put up in California, being prepared from dehydrated pumpkins, ground and dried. It is meant particularly for use in the making of pumpkin pies, and its inventor claims for it all the qualities of fresh pumpkin.

The Greenfield government has decided to have a survey of the Canadian bank act made on its own account. It being recognized that the banking system of the country virtually affects the western farmer and general business interests, and the act will be up for revision in the dominion house next year.

The Radio Craze

Mr. Henry M. Neely, in the Public
Ledger, gives the following pointers
about the radio:

Radio is an actual home entertain-
ment today. A family is seated in
their home listening to music from
several hundred miles away. We have
the long box which contains the first

part of the receiving apparatus and
then the receiving apparatus which
slides up the signal strength so that
they can be transferred to the loud
speaking horn. Everybody in the room

can then hear them as plainly as they
could hear a phonograph. What is the
radio craze about? What is there in
the air to interest people who don't

know anything about radio? Don't
you have to know a dot and dash code
or something to get anything out of
it? Nine men out of ten who read ev-
ery day about the wonders of radio

broadcasting ask their friends these
questions. And unless they can get
satisfactory answers, they go on about
their daily routine convinced that

radio is beyond them—one of those
deep and involved sciences that re-
quire a lot of special study and
complicated apparatus that only an

expert can keep in working order.
But they are wrong. You don't have
to know anything about radio to get
the enjoyment out of this broadcasting.

You don't have to know any dot and
dash code. If you buy a standard set
designed to receive a broadcasting
station, you simply put on the head-
phones, turn a couple of knobs until

you get the best results and then sit
back and enjoy an evening of in-
struction and entertainment such as
no other invention has yet offered us.

There is, of course, a lot of broad-
casting done in the dot and dash code
that there is nothing in this to inter-
est the average layman. For him

when his phones are on and he is ad-
justed, there is the sound of the
human voice telling what station it is
sending. The voice comes in even

more clearly and distinctly than it
does over his house or office tele-
phone. Then comes, perhaps a vocal

solo—a soprano, we will say, singing
a beloved air, and the music received
is almost as distinct and pure as

though the listener were in the same
room with the singer. There are or-
chestral pieces, lectures, speeches,
market reports for the day, general

and sporting news, all the results of
the day's games or the night's fights.
There are dance music programs,
which, with proper apparatus, can be

put on a loud speaking horn, or, with
an ingenious and cheap little attach-
ment, transferred directly to the tone
arm of the phonograph and a roomful

of people can dance to the music of
an expensive orchestra perhaps three
or four hundred miles away.

On Sundays there are special ser-
mons in he afterwards, and, in the
mornings and evenings, actual ser-
vices held in real churches and sent

broadcast on the waves over the
country by means of transmitters in-
stalled in the churches. So clearly
do these come in under favorable con-
ditions that you can hear the respon-

sive readings of the congregations, the
sermon and almost the coins dropping
while the collection is being taken.

This all sounds like a madman's rav-
ings to one who has not actually done
it, but if you know of an amateur
who has a set, get yourself invited to

his house some evening and you will
come away chattering about radio to
yourself and your family and your
friends just as irrepressibly as the

rest of us chortle to you now. There
hasn't a spot in the whole area of the
United States or Canada which can't
get at least one of these radio con-
certs. The mail lot the big broadcast-

ing stations, even in the extreme east
brings almost daily an account of the
far north woods or the mountains of
Mexico who is finding life less dreary

since the ether waves have started
bringing home an art and news and
civilization to his lumber camp or
his ranch or his mine or office. There

is one thing about it, of course, the
farther you are away from a broad-
casting station the more expensive a
set you will have to have. But the
result can be achieved by any one
anywhere between the Atlantic and
the Pacific. And it's all so well worth
while that you will find the money for
it somewhere, once you have had a
taste of what is in store for the owner
of a set.

Red Deer's memorial statue, the
work of Major Norbury, which is be-
ing exhibited on the G.W.A. grounds
through the efforts of the Edmonton
Art association, will remain there un-
til Monday. Following the week-end,
the statue, which is the figure of a
Canadian soldier in full kit, coming
out of the trenches, presumably for a
trip to the red hills, will be erected
and shipped to its permanent site at
Red Deer—Bulletin.

Coming-Back

Away down here in Missouri,
Clear away from the world it seems.
Where every day is the day before,
And you have the same day dreams;

Some people rave about the south,
And claim its mellow charms,
But if I could turn fate's tables,
I'd be in Canada on a farm.

In Alberta where it's good to live
And you know you're dead or alive,
Where the people aren't afraid of a
stranger.

And they all get up at five.
In summer it's California,
In winter it's a place of its own.
But here is the same the whole year
round.

Oh! Gee! I wish I was home.
Then when people smile, they smile
When the sun shines there, it shines,
And then, when you say you've had
good times.

Believe me, now, it's times,
I feel away from the world down here.
(Like a fish out of water, I mean)
So I think I'll pack and come right
back.

That's my one and only dream.
Dry land is best for chickens,
Water is best for ducks,
And here is fine for Missourians,
And Canada for Canucks.

—Deniah C. James
Lamar, Missouri.

RADIO

Lucius Lucidus Phidias Bump
Owned some stock that started to
slump.

—Went wild cat wild
And hit swamp low—
Lucius was broke with no place to go
But he had a friend, Lucidus did.

A friend who was low legged, low
browed, low—
The friend was wise
And he had a plan—

A regular go-getter confidence man,
He and his friend got a pair of recit-
ers—
—A radio set to convince unbelievers.

They wired her up
To a hole in the wall
And set down to wait for the sucker
to call.

Oh, how they flocked to the radio
phone!
They heard Dempsey snore and the
western grass.

Ang Lucius (in hiding)
Would sing 'em a song.
'Twas technically right, but morally
wrong.

Do not, gentle reader, believe all you
hear.
From the radio phone attached to your
ear.

Just because some one says
It will be a fair day,
You needn't throw your umbrella
away.

OIL COMPANIES TO
BOOST GASOLINE

While the oil companies of the
United States have been boasting
the price of gasoline to an unprecedented
peace-time level, they have been ac-
cumulating the greatest stock of this
fuel on record, states a dispatch from
Washington. The dispatch continues:

"The nation's gasoline stock on
April 1st passed by some 47,000,000
gallons the high record of 307,000,000
gallons reported in storage March 1,
according to a statistical summary
just issued by the bureau of mines.

Stocks of 54,232,000 gallons were on
hand April 1, a supply of 20 per cent
greater than for April, 1920. "Domestic
consumption of gasoline, for the
first quarter of 1922, shows an in-
crease of seven per cent, over the
first quarter of 1921, and 25 per cent
over the corresponding period of 1920."

Superstition

I broke a mirror 'tother day, and
dropped a cork upon the floor; and
Annie Baltza rose to say, "You
sure will make you sore, and make you
flout the fates that say, and not find
life a beauty-bow. It's 'till to break a
looking glass, it calls up all the imps
of gloom, and many evils come to pass
when forks are strewn about the room
your luck's forsaken you alive, you've
struck dead hand in hand with doom."

That morning by the early mail, I got
a letter from a gent who long ago
had borrowed kate, and now he paid
me every cent; so what did dropping
forks avail? What force was in my
aunt's lament? I met a broker and he
said, "You know that oil stock you
bought? I all supposed that it was
dead, too dead to skin, my brokers
thought; and now it's soaring over-
head, in every market it is sought."

Then I rebuked my mildewed aunt,
when I my cottage I repaired. "This
sign and omen stuff is cost and pit-
tance," I declared, and ventrally she heard
me rant, and noddily crossed her hands
and glared. "Your spiel," she muttered,
"is no good; you talk like one who
has the mange; the omens are not un-
derstood by one whose wits are wild
and stranger; if oil stock you
bought on wood—your present lack is
bound to change."—Walt Mason.

In the way of newspaper "thrillers"
this one takes the cake: "Newspaper
men accustom themselves to summaries
zings, but sometimes these summaries
are drawn so fine as to leave the
reader no wiser than when he com-
menced reading the article to which
reference is made. I am reminded
of this by the difficulty a publisher
of the north got into a few years ago.

He told of a man being treed by the
wolves. After keeping the man up
the tree for several hours, all the
wolves left except one. In about an
hour they came back, bringing with
them two large leavers, who com-
menced cutting down the tree. The
story stopped there. The next day
an angry subscriber came into the ed-
itor's office and demanded that his
paper be "stopped" at once. He said
"my wife did not sleep a wink last
night. You did not say what hap-
pened when the leavers cut down the
tree." The editor yawned and said:
"Perhaps I did leave too much to the
imagination. The fact is that when
the tree began to rock, the man top-
pled, it over him into a large green
hose, built a bed of the branches and
went to sleep. In the morning the
wolves had disappeared after having
made a feast on the leavers."

CONGRATULATIONS

"Well," cried Mrs. Henpeck, "our
son is engaged to be married. We will
write to the dear lad and congrat-
ulate him." Mr. H. agreed; he dared
not do otherwise. "My darling boy,"
read and write to him every day. "What
glorious news! Your father and I re-
joice in your happiness. It has long
been our greatest wish that you
should marry. A good woman is heav-
en's precious gift to a man. She
brings out all the best in him, and
helps him to suppress all that is evil."

Then there was a postscript in a dif-
ferent handwriting. "Your mother
has gone for a stamp. Keep single,
you young noodle."—Argonaut.

When You Go Away

When you go away in the holiday season,
don't invite serious loss by leaving important
papers, silver and other valuables in the house.
And don't burden friends with the responsi-
bility of housing them.

Rent a Safety Deposit Box at a branch of this
bank. The charge is trifling and the security is
absolute.

Edmonton Weekly News Bulletin

Premier Greenfield, accompanied by Alfred Chad, freight traffic supervisor for the provincial government, is now in Ottawa to give evidence before the common committee, considering the Crown's Nest Pass agreement.

Howard W. Tye, for nearly twenty years construction engineer with the Canadian Pacific Railway, has been appointed superintendent of the provincial government's railway, the Lacombe and Northwesterly, in succession to H. G. Dinwiddie, who has been appointed highways commissioner for the province.

From Sept. 1st 1921 to May 30th, 1922, a total of 5,400,000 bushels of wheat had been shipped out of the Lethbridge division of the C.P.R., which includes the territory from Okotoks south to the boundary, and east to Dunmore Junction, near Medicine Hat.

Prof. W. E. Cutler, geologist of the University of Alberta, has left Calgary for a trip by the Bow River and Saskatchewan river, in a rowboat for Winnipeg, the object of the trip being to secure fossils. It is stated that it is ten years since the trip has been attempted.

The annual convention of Women's Institutes of Alberta will be held this year in Calgary, from June 13 to June 17, the session being held in the Hotel of the Palace Hotel. It is expected that the convention will be a very large one.

Grande Prairie Municipal Hospital

With six votes to spare over the necessary two-thirds majority, residents of the new Grande Prairie municipal hospital district carried the hospital scheme which has been in prospect since the organization of the district.

For the first time in the history of the province, a vote was held in this district to establish the location for the hospital, and the town of Grande Prairie won out over the village of Clairmont, and the hamlet of Sixsmith by a majority of nearly a 1000.

The new hospital district is the largest in the province, including 72 townships, and the three settlements of Grande Prairie, Clairmont and Sixsmith.

The largest district previously held 25 townships.

The Grande Prairie hospital district makes the thirteenth now established in the province. It is anticipated that five other districts will vote on this question this year.

Censorship Fee

Fee for censorship of moving picture films by the provincial government has been raised from \$1 a reel to \$2 a reel. It had been proposed at first to make the fee \$3 a reel, but on representations being made by the motion picture men of the province to Premier Greenfield, it was agreed to make the fee \$2.

Construction of the Holden drainage scheme is practically completed, and inspection of the system has been made by L. C. Charleworth, irrigation and drainage commissioner for the province. The Holden system includes 15,000 acres of land, of which a good portion is already under cultivation.

The Dayland drainage system, which will reclaim 16,000 acres of land is now under construction.

Preparation for a survey of the operation of the Canadian banking act under the effects of conditions on the prairies, are being made by the provincial government. An expert who will work under the direction of Attorney General Brownlee will be employed for this purpose, in order to compile data for the presentation of this province's case when the house of commons at Ottawa takes up consideration of the Bank Act.

A delegation has presented a request to Hon. R. G. Reid, minister of health, that some plan be adopted to make use of unused agricultural school buildings as detention homes for juvenile delinquents of the province. The delegation stated that the need of such homes was very great in the province.

Acres in Crop

According to an estimate prepared by the crop statisticians of the agricultural department, there is very little

increase in acres in wheat in the province this year, but a considerable increase in acres in oats.

Crop Statistics

In cooperation with the Dominion Bureau of Statistics the crop statistics branch of the agricultural department has circulated among farmers of the province schedules for the collection of statistics regarding acreage in crop and livestock sold since June, 1921, and that now on hand. Farmers are urged to fill in these schedules as soon as possible and return them to the office of the publicity commissioner, government buildings, Edmonton.

The Grasshoppers

While grasshoppers are now hatching out in millions in southern Alberta the department of agriculture urges upon the officials of the municipalities and the farmers, the necessity of economical use of poison bait, and warns against municipalities being stampeded into ordering supplies by the wholesale, promising that they will be underbid. Not only does indiscriminate use of poison material result in waste of supplies that are somewhat difficult to get, but it also results in ineffective measures against grasshoppers.

Present indications are that there is very little barn left in the entire dominion, since all the prairie provinces have purchased very heavily. Nearly all of the immense stocks obtained by this province have been distributed, and it may be impossible to fill repeat orders from districts in which the present supplies have not been used with the utmost care.

The greatest economy in the use of the bait will be effected in districts in which the breeding grounds are located as soon as the grasshoppers hatch in order that the latter may be poisoned while they are still confined to comparatively small areas.

Community Organization

Community organization is the most reasonable method of fighting any pest. It is community organization that enables armies to make progress and as long as it is organization is held together success is assured. Any disruption to the organization spoils failure and results can not be accomplished at any expense of money.

Every fight carried on by individuals acting as such is bound to cause a lot of wasted effort and unskipped energy that can be avoided.

When the farmers in a community decide to organize they should make plans to include every farmer and land owner in the district. One man who holds out in the community may be enough to upset the work of all the rest unless some drastic measures are taken. The present pest and provides for such measures and the elected leader should make every effort to see that they are enforced. The action of the leader should be backed by every member of the organization as long as such actions are reasonable. The community organization should not be confined to the farmers but must include the business men in the towns and cities.

The effects of the drought are being felt by the business men and yet how many of them realize that if the grasshoppers were really uncontrolled this season that there would be no crop in the infested areas this year.

Where strong community organization has been made in grasshopper campaigns the results have been exceedingly satisfactory. In most instances the grasshoppers have been practically eradicated from the district in one season and often with one treatment, though there have been cases where two applications of poison bait have been necessary.

W. C. Clark of Nordberg spent a few days of last week with friends in the city.

MILLET

V. C. Rowley is building an up-to-date residence on the Wolf property, part of which he has purchased. Gerald Decker is also building a residence. What does this mean, Gerald?

Bishop Gray held confirmation service at the English church on Sunday last.

The U.F.A. picnic on the 24th was a big success. The ball game between Ledge and Millet was very exciting, Millet being the victor. The basketball game also drew large crowds. Ledge and Millet ball girls play a very strenuous game, Millet again being victorious. In the game between Millet and Wetaskiwin, Millet lost.

The dance in Pinoy's hall on the evening of the 24th was a huge success, as usual there being a crowded house.

John Madison is on a visit to Millet and is busy shaking hands with his many friends.

The next picnic is on July 1st, under the auspices of the Board of Trade.

There is a rumor that oil has been struck at the oil wells. Will someone confirm this?

At Millet, Edmonton, was in Millet on Sunday, having been called to attend it. Booth, and while here also visited J. Whales, who has been laid up for a while.

White & Orr, of Wetaskiwin, have purchased the stock of the Millet Hardware, and have added the same to their chain of stores.

J. Taylor of the Lilley Fire Adjusters, Edmonton, was in Millet on Saturday adjusting the fire losses of T. Cummings and Adolph Dargatz.

Ching is shortly to commence erection of a general store, and the lumber is now all on the ground.

A. H. Pryor is improving his residence, having two rooms added. Drinker Bros. are the contractors.

Fred Pinoy is laid up with a very bad attack of erysipelas.

The picnic as Pigeon Lake on Wednesday was very well attended. A number of people from Millet drove out and had a very enjoyable time.

The Mulligan-Hills hall will have to be made twice as large if they intend to accommodate the crowds that will be at the lake this year. Pigeon Lake is now coming into its own. It is surprising that such a beautiful lake has not been patronized before. Now, no doubt have seen nearly every lake in Alberta. See Pigeon Lake and then you will see what a magnificent lake looks like. Ask Jim Belcher, he knows. Take a trip out, the roads are perfect.

The Millet Women's Institute will hold their June meeting a week earlier than usual, June 7th, at the home of Mrs. A. C. McLean.

Will each member make a special effort to be present and bring a friend with her?

Sunday, June 4th is Conference Sunday. Mrs. McKinney, of Claresholm, will day. In the absence of the Pastor, take charge of the services at Larch Tree, Hillside and Millet. Mrs. McKinney is a gifted speaker known throughout Canada as a leader in W. C.T.U. and Social Service activities.

We are very glad to know that Mrs. Harvey Riegan has been able to get her little boy home from the hospital at Wetaskiwin, where he was suffering from a broken arm and leg, caused by falling into an outdoor pit.

Rev. Mr. Brummett of Calgary is now holding summer supply services at Pigeon Lake mission from 11-12 which

has been without a pastor for several years.

Rev. Hughson left early Wednesday morning for the Methodist conference at Edmonton.

Mrs. T. Ahrens, delegate to the Methodist conference, left on Wednesday for Edmonton.

Genuine Ford Parts
For Sale Here

You would not think of using binder twine to mend a fence, or a fiddle string to lace a belt, yet when you use a spurious part in your Ford you are using something still less fit for the purpose.

When making minor repairs yourself demand Genuine Ford Parts—and see that you get them. When more expensive repairs or replacements are needed run your car in here where none but Genuine Ford Parts are ever used.

RHEUMATISM**LUMBAGO NEURITIS SCIATICA**

Rheumatism and similar troubles invariably yield to this T.R.C.'s (Pneumonia, Rheumatic, Cerebral) treatment. Many doctors and many hundreds of druggists from coast to coast will confirm this truth. The hundreds of testimonial letters in our files show that T.R.C.'s have successfully treated Rheumatism, Lumbago, Neuritis, Sciatica and acute Neuritis of all kinds. But the best evidence is your own experience. If you suffer we want you to try this guaranteed non-drug treatment at our expense. Druggists sell T.R.C.'s at \$1.00 per box. Free trial write to T.R.C. 40 Colborne Ave., Toronto. SOLD BY NORTHERN DRUG CO.

THE BAD COLDOF TODAY**MAY DEVELOP INTO

TOMORROW**

Next to consumption there are more deaths from pneumonia than from any other lung trouble.

Pneumonia is nothing, more or less than "Lung Fever," or as it used to be called, "Inflammation or Congestion of the Lungs."

The cough accompanying pneumonia is at first frequent and hacking, and the expectoration tough and colorless which soon, however, becomes more copious and of a rusty red color; the lungs become congested and the bronchial tubes filled with phlegm, making it hard for the sufferer to breathe.

On the first sign of a cold or cough you should get a bottle of Dr. Wood's Norway Pine Syrup, and thus prevent the cold developing into some serious lung trouble.

Mr. J. F. Crouch, Elmstone, Ont., writes: "Two years ago I got pneumonia and a cough followed it. I coughed continually, and no matter what I used I could not rid myself of it. In November I was in a bad way, and my doctor, because my throat choked me up so."

My sister wrote me from Ottawa, and told me to try Dr. Wood's Norway Pine Syrup. After using one bottle I found relief, so I got another one, and before Xmas my cough was completely gone."

DR. WOOD'S**NORWAY PINE****SYRUP**

Price, 35c and 60c per bottle; put up only by The T. Millbourn Co., Limited, (Toronto, Ont.)

**MODERATE REDUCTION IN TARIFF,
BUT BIG INCREASE IN SALES TAXES**

Ottawa, May 27—Not a seat was vacant in the house on Tuesday when W. S. Fielding arose to present the first budget of the present administration, but his sixteenth as minister of finance. When Mr. Fielding last made a budget statement—11 years ago—his story was one of bounding prosperity. Tuesday (on an aftermath of the war) it was because of the gravity of the financial situation that he stressed the necessity of debt reduction, the necessity of making his budget balance. He had reductions to announce in customs duties, but he had likewise some sweeping increases in taxation. He pleaded for the "deep and earnest need" of economy; he urged that members of parliament and people alike should pass a self-denying ordinance.

"I would not, however," Mr. Fielding hastened to add, "have anyone draw the impression that I take a gloomy view of the situation." There is, he argued, a brighter side.

For the financial year, 1922-23, he summarized the financial situation in this wise: Estimated revenue, \$322,629,000; estimated expenditure, \$445,225,000. This included an estimated forty million reduction in the revenue from licence tax, the total revenue being based on existing taxation. How was the financial equilibrium to be established? The operation right to be painful, but it had to be faced squarely.

In the first place, Mr. Fielding had some 50 tariff reductions to announce, increases in large part, the British preference. Paria implements, chiefly imported from the United States, were to come down from 2-1/2 to 5 per cent. There were similar reductions on implements and materials used in dyeing, tanning, mining and plumbing. The British preferential tariff would be reduced on certain textiles on boots and shoes on clothes on furniture on window shades. There was a five per cent preferential tariff on collars and cuffs. There was a reduction in the preferential tariff on cocoons.

What about new taxes? Here Mr. Fielding had an increase of no less than 50 per cent to announce in the sales tax, a tax which last year was heavily increased. He also proposed to increase taxes to announce on passenger automobiles, confectionery, beer, cigarettes, cheese, bank circulation, insurance premiums paid on licensed companies, telegrams and cables, municipal waters and transfer of stock.

The following gives the budget in brief:

Tariff reduction combined with li-

creases in special taxes, British preference increased on many items.

Few reductions on imports from the United States. As for last season regarding customs certificates, valuation for duties, and limiting depreciation on foreign exchange to 20 per cent, all are repeated.

Goods marking act repealed, but marking made permissive at option of government. Sales tax increased by 50 per cent. Tax of one per cent imposed on bank deposits, in addition to income tax. Five per cent tax imposed on premiums paid to unlicensed insurance companies.

Tax on cheques raised to two cents on each \$50.00.

Tax on telegrams raised to five cents.

Taxes on tobacco, cigars and cigarettes revised so as to reduce cheap or brands and increase rates on the more expensive.

Alcohol, beer, porter, etc., to pay tax of 15 cents a gallon. Additional tax of five per cent on automobiles, up to \$1,200 in value, and above that, ten per cent.

Confectionary to pay tax of five per cent.

Tax reduced on matches in small boxes.

Customs rates on agricultural implements reduced by from 2-1/2 to five per cent.

Reduced shoe and duty reduced by 2-1/2 per cent.

Increase in British preference on sugar.

Reduction of 2-1/2 per cent on wool clothing.

Collars and cuffs, reduction in duties of five per cent.

Reduction in duty on gasoline for fishing vessels, and on other fishing supplies.

Reduction of 2-1/2 per cent in British preference rates on cotton yarns and cotton fabrics, also on knitted goods, linens or cotton clothing.

British movie films to come in at a lower rate.

Machinery for sawmills reduced under the general tariff.

Exclusion duty of 49 cents imposed on beet sugar.

Parts of pumps and iron tubing to come in at reduced duties for mining industry.

Iron tubing and tools reduced for plumbing.

Window shades reduced 2-1/2 per cent, if British.

Import of many kinds added to prohibited list.

Drawback schedule revised.

and paid him ten cents a fish, making a total payment of \$5.

After he had reached Pond du Lac, he had yet an eight day journey on snowshoes, as the dog team could not travel much of the way owing to the high banks of the river.

He found that the man whose death he had come to investigate had died from natural causes, perhaps cold or starvation. He had been dead at least a year. It was impossible to bury the body on account of the solid rock. So he says: "I pulled the rock stone to pieces and brought in some rocks from outside and lowered the body and body to the ground; after wrapping up the remains with a blanket and anvil I put a number of logs and wood over the top, thereby forming a grave. Before leaving, I nailed up the door and window and wrote on the door in English, French, Cree and Chipewyan, 'that this was the grave of Emmanuel Person, and that no person was to interfere to attempt to go inside the shack'."

A few little details which are crowded into the last paragraph of the report and which Officer Chaplin almost forgot to mention, were that the trip back "was shorter owing to the fact, that I took a lunate at the request of the residents of Pond du Lac and handed him over to the Alberta Provincial Police," that he saw no game, but was never out of sight of a large number of wolves, and that for much of the distance "there was such a blizzard blowing that we could not see the dogs in front of us."

Chaplin's job was a man's job, one for a man of resources and of the kind of grit that looks upon "insurmountable obstacles" only as something to be overcome. Of his own orders was as natural as drawing breath; he was sent and he did what he was sent to do. He was the real policeman, to whom the sense of duty was above everything else, and the man whose attitude his post covered 1,200 miles of Canadian snow or a city street.

ALTA. HOTELMEN ARE ORGANIZING

Calgary, May 29—Hotel proprietors of Alberta will meet in Calgary on June 2 for the purpose of forming an organization which will be known as the Alberta Hotel Men's association.

The meeting will be held in the Palliser hotel on that day, when officers will be elected and the necessary committees appointed.

**COULD HARDLY
MOVE IN HER BED**

Eight Boxes of "FRUIT-A-TIVES"
Completely Relieved Her.

MADAM RICHER

Labelle, P.Q., April 18th, 1922.
"It is my duty to tell you and publish to all what your remedy 'Fruit-a-tives' has done for me."

I suffered with Rheumatism for ten months; could hardly move in bed, and was miserable all the time. I tried several physicians and took many remedies, but they left me at the same place, in bed and suffering, the Rheumatism was so bad.

I finally resorted to taking 'Fruit-a-tives' and continued the treatment regularly as I found myself getting better. After using eight boxes of 'Fruit-a-tives' (which cost only \$4) I am completely well without a trace of Rheumatism.

Madam J. RICHER.

Box a box, 5 for \$2.50, trial also 25c. At all dealers or sent postpaid on receipt of price by Fruit-a-tives Limited, Ottawa.

**GOOD SUITABLE BULLS
ARE SHOWN AT
LACOMBE**

Lacombe, May 19.—Some splendid animals were shown at the Lacombe bull sale on Monday. For the most part they are in good fit, and the best have breeding behind them that make them suitable to lead the best herds.

Judging took place Monday morning. Captain Lathin, of the department of animal husbandry of the University of Alberta, placing the awards. The females were sold in the afternoon at very satisfactory prices, and the bulls were offered Tuesday.

There were twenty Shorthorn heifers and one Hereford cow, 28 Hereford bulls, 22 Aberdeen Angus bulls, 127 Shorthorns 3 Galloways and 5 Red Polled.

It was a real breeders' sale, practically all the animals offered being bred by the owners themselves, and justified the reputation of Lacombe as the home of good cattle. There were a couple of dozen particularly fine Shorthorn bulls, and the tops in the Angus and Hereford were good animals. The attendance Monday was good, although only the females were sold that day. The weather was favorable and the crop condition around Lacombe is sufficiently satisfactory to promise a good sale.

In the Angus bulls, the champion ships went to a Blackbird, H. C. A. Blackcap two-year old, shown by Geo. A. Graham, and the second prize and mat in the class, took reserve championship. He was a Glenacrock bull shown by Roy Ballhorn, of Wetaskiwin. They were both good Angus types, and while perhaps the reserve was smoother, the champion won out on his low thick set body.

**SOLDIER SETTLERS
ABANDONED FARMS**

Ottawa, May 29—Charles Stewart, minister of immigration, stated in the house of commons that there had been 2,353 abandonments of farms by soldier settlers. The total amount of public monies invested in lands and buildings was \$1,661,237. The return received was \$1,852,234. The amount invested in stock and equipment was \$539,353, and the return from the sale of this stock and equipment was \$374,466.

**WINNIPEG FIRM
BUILDS EXTENSION
ON LACOMBE ROAD**

W. E. Dutton, of Winnipeg, formerly with J. D. McArthur in railway construction, has been awarded the contract for the building of the twelve-mile extension to the Lacombe and Northwestern railway northwest of Bentley. This is the only piece of railway extension that is under way at all as yet. At the last session of the legislature, it was decided to make some extensions to the Edmonton and Duvergne from Berwyn and Grande Prairie, but satisfactory arrangements have not as yet been made between the provincial government, the J. D. McArthur interests and the Union bank. It is expected that Premier Greenfield will have another interview with the bank officials on his return from Ottawa when it is hoped that some agreement may be reached. At present Hon. Vernon Smith is not sure whether construction will go on this year or not.

**\$100,000.00 FIRE
AT ALLIANCE**

Alliance, May 29—A \$100,000 fire wiped out an entire business block on the main street of Alliance, on Sunday morning. The blaze is thought to have originated in the rear of Thayer's hardware store about 2:30 in the morning. It spread rapidly all through the remaining section of the block and before the fire brigade could gain control had reduced many commercial houses to charred ruins. Included in the losses are the Bank of Montreal, Alberta Hotel, Darcy's hardware store, Lindsay and Bowen's pool hall, the moving picture theatre the local hotel shop, the C.P.R. restaurant, and three office buildings. The cause of the conflagration has not yet been ascertained.

TOO MUCH COMPLEXION

He had been waiting with his hat's "So it seems," answered the young man. "Pity she comes off so, but I," he continued as he gave another vigorous rub to the white spots on his face.

Mr. Farmer

Seeding is about through and breaking season is here. Have you bought that Brush Breaker that you will need? If not come down and look at my Verity 22, 16, or 14 inch plow—they have a little the best turning board that you can buy any place and the beams are well ironed and strong enough to stand the pull. If its a Tractor Plow you want I can sell you a complete steel plow in any style that you might want, in either power or hand lift. I have several second hand breakers for sale too, and think I can supply you in anything that will suit.

Don't forget that I always have repairs for the Massey Harris on hand.

As far as Tractors go I have a size for every farm either in a 10-18, a 12-20, a 15-27, or a 22-40, and don't forget that the J. I. Case Co. are behind each of these Tractors so come in and talk this over with me and I am sure that I can show you where our Tractor has it over some of the so-called jacks as good, and cheaper in cash only machines that are trying to flood the market today.

TOWN TOPICS

W. H. Odell left for Ontario last week owing to the death of his father.

Mrs. M. O. Nelson is expected home this week from her extended visit to California.

The Ladies' Hospital Aid society will meet at the home of Mrs. Wright on Tuesday evening, June 6th at 8 o'clock.

The prize lists for the Wetaskiwin Exhibition are now in the hands of the printers, and will be ready for distribution shortly.

Sim-Dwora has taken the agency for the new Maxwell cars and have one in stock for demonstration purposes.

On Victoria Day the family of A. A. Ellis went to Pigeon Lake and during the day had several swims. They assert that the water was not very cold.

Dr. Foster, Chiropractor, is moving his office into the Empire block, and will have everything in first class condition by the 15th.

J. J. Borsch came up from Wisconsin a few days ago to look after business affairs, and to visit friends. He intends moving back to Alberta in the fall.

The regular meeting of the John Knox U.F.A. and U.F.W.A. will be held at the home of Mrs. J. H. Lyle on Friday evening, June 8th.

Mrs. Geo. Baylis is leaving this week on an extended trip to Vancouver, Victoria and Seattle. She expects to be absent about three months.

The first U.F.A. league game to be played in Wetaskiwin will be at the ball grounds on Friday evening next, June 2nd, at 8.30, between Crooked Lake and Cherry Grove.

Geo. L. Owen was at Calgary last week at the horse races held there. He succeeded in getting into the prize money with his young mare, Faces Value.

Rev. W. H. Irwin went to Edmonton on Monday to attend the annual conference of the Methodist church. J. F. Fowler, lay delegate, left on Wednesday morning.

W. Gibson and J. H. Walker are erecting cottages at Pigeon Lake. It is reported that several other Wetaskiwin citizens are contemplating building at the lake this summer.

Mrs. Wm. McKitt and Mrs. T. E. Williamson are the Wetaskiwin delegates to the annual meeting of the W.M.S. being 1-4 at Edmonton this week.

The rain on Wednesday night last checked the fires which have been burning in the timber north and west of Pigeon Lake. Considerable damage was done.

At a meeting of the A.F. & A.M. on Thursday evening last, Bro. R. N. Shaw was presented with a smoking set as a slight token of esteem. Mr. Shaw expects to be leaving the city shortly.

The young men who were arrested a few days ago on the charge of entering the East Side Drug store and removing liquor and other articles, pleaded guilty and were let off on suspended sentence.

Remember the first day of the early closing for the summer takes place next week when Wednesday will be a half holiday. All places of business close at 12 o'clock noon.

Mr. Barnett, who has been ill with heart trouble in the Alexandra hospital at Edmonton, returned home on Saturday. It will be some time before Mr. Barnett will be able to resume his duties.

A. G. Gross, of Puyallup, Wash., arrived in the city on Monday afternoon to spend several days on business and renewing acquaintances. He says the former Wetaskiwin families who moved there are all enjoying good health and are doing very well.

This district is now badly in need of rain, as the very hot weather of the past few days is having a very detrimental effect on the crops. The seeding is practically all done, and with moisture, there would be every prospect of an excellent crop.

The Citizens' Band appears to be getting into good condition. An impromptu audience listened to the practice on Monday night, through the windows of the U.F.A. hall. The citizens would like to hear the boys in the open air soon.

T. E. Williamson went to Calgary last week to meet the relatives who were accompanying the remains of his brother from the Coast to Stettler for interment. When he returned from the funeral on Tuesday, he was accompanied by his mother, who will spend a few days here before leaving for her home in Ontario.

G. H. Robinson and family moved out to the farm on Wednesday, where they will reside for some time. On Monday evening the members of the Methodist church choir met at the home and presented Mr. Robinson with a fountain pen as a token of appreciation.

The friends of the Battle River Missionary society will meet at the home of Mr. and Mrs. Ernest Sutter at 7 o'clock on Friday evening, June 8, to enjoy a social evening. There will be a short program and light refresh-

ments, and ice cream will be served. There will also be a basket for which any donation will be very much appreciated.

Miss Violet Kelley, formerly of Wetaskiwin, graduated as a nurse last week from one of the Edmonton hospitals. She won very high honors, and was awarded the medal for general proficiency. Among those who attended the graduating ceremony were her Wetaskiwin friends, Mr. and Mrs. Chas. Boyer, Mrs. George Baylis and Mrs. L. C. Kelley.

Y. C. French and wife intend leaving Friday morning for Ottawa to attend the annual meeting of the Canadian Weekly Newspapers association, and will be absent until near the end of June. The editor would be glad if anyone having news for the paper would send it in early in the week, thereby assisting the staff in the publication of The Times during his absence.

While inspecting a hawk's nest on a farm, four miles north of the city on Wednesday last, week, Robert Stanley discovered the leg of a homing pigeon on which was a band with the inscription Xurg 198 4512. This band has been forwarded to the secretary of the Homing Pigeon Society of Edmonton, with the hope that the owner of the bird may be informed as to why the pigeon did not return.

GOLF NOTES

By Brasse
We note an item in last week's Free Press, stating that there is no sport in Wetaskiwin this year. The writer should take a walk over to the golf course any afternoon or evening and he will change his mind.

The new course is finished and is more difficult than the old one, but it is also more sporty.

Fourteen members motored over to Bashaw on Victoria Day, and had a very enjoyable game over the Bashaw club's course. The course is beautifully situated close to Buffalo Lake, and would make an ideal camping ground for the summer months. The course is not a difficult one, providing you drive straight. If you get off the fairway you are liable to land in the trees, but there is very little underbrush and not much danger of losing balls.

The gentlemen's match with the Bashaw club, resulted in a tie, four of each club winning and one a tie, there being nine players.

In the ladies' games the Bashaw ladies won by one hole. A two ball mixed foursome will be starting on Saturday next and all entries for this competition should be in the hands of the secretary on Thursday, as the draw will take place on Friday.

O. Boulton set a record for the ninth and longest hole at Bashaw, making it in three.

Some of the ladies did not play quite as well as they should have. It is possible that the secretary can explain this, as we understand he administered encouragement just before the game commenced.

Mr. Wells made his two rounds in 47 and 45, which is very good on a strange course.

One of our number had to be almost forcibly restrained from taking a bath in Buffalo lake without a bathing suit.

Our Pro. did not quite come up to our expectations in his game but wait until Bashaw tries to "come back". Pres. Finkle is practicing hard with his masher and says he will beat Herrington of Bashaw yet.

The Ladies' competition is very popular. Plenty of room at the top. The competition started couple of weeks ago to decide the course championship was won by "Slim" Kinstela. H. B. Wilson, second.

Bashaw is a nice little town, but they think there is a good opening there for an enterprising druggist. The secretary drove his ball into the woods near the ninth hole, at Bashaw, and in looking for his ball, discovered what he thought was a dozen golf balls, but they turned out to be partridge eggs, (and the drug store was closed).

Why not pay your subscription now?

CORRECTION

In last week's issue appeared an advert, in which E. M. Peteret asserted he was the sole agent of the Singer Sewing Machine for this community. There was some misunderstanding in this matter, as the Alberta Music Co. have had a contract from the Singer Sewing Machine Company for the Wetaskiwin district for some time past.
